*\*Candidates must complete this ATS academic plan application prior to completing 40 semester hours along with his/her faculty, chairperson(s), advisor(s), and dean(s). ATS academic plans submitted after 40 or more semester credit hours are completed must be approved by the Provost's Office. If you take courses prior to approval of this ATS academic plan, the courses may or may not be approved for this degree. The ATS academic plan must outline an intended area of concentration and identify employment opportunities at the culmination of this ATS academic plan. Each candidate will be required to complete no less than 30 semester hours of coursework at the College, at least half of which shall be in the area of concentration. Revisions to the ATS academic plan must be approved by the chairperson(s), dean(s), and Office of the Provost, with a copy of all revisions sent to the Records Office.*

The Associate of Technical Study (ATS) degree is awarded for successful completion of an individually planned program of study designed to respond to the need for specialized technical education not currently available in the formal degree programs available on a particular campus. The program must have an area of concentration which is equivalent to at least 30 semester credit hours (45 quarter credit hours) in technical studies and a clearly identifiable career objective. The area of concentration can either be formed by:

**Type A** - A coherent combination of technical courses selectively drawn from two or more technical programs currently offered by the college to serve a career objective that would not be adequately addressed by one of the existing programs alone; or **Type B** - Courses completed or training received by a student at other institutions of higher education, career centers, or other educational enterprises judged by the institution to be of college level and for which the institution awards degree credit.

**General Education Core Requirement:** (15 credit hours) 3 credit hours in English Composition (ENG111 or ENG112); 3 credit hours in Mathematics; and 9 credit hours from a combination of Natural Sciences, Arts and Humanities, and Social and Behavioral Sciences.
